- DMVbased The Kontrollled Khaos Band (KK) is a powerhouse super-group consisting of extremely talented vocalists, MC's, musicians, and producers. Kontrollled Khaos was established January 2017 by leader, drummer, and visionary, Jonathan "Footz" Livas. Footz initially dreamt of gathering artists for a project. However, the dream turned into a reality and Kontrollled Khaos was no longer a project but a band. They created a new genre known as 'Garage Soul'. Garage Soul is an infusion of all genres with bend towards RnB and Hip Hop.
- Their sound has propelled the band to work with numerous artists such as Goldlink, Lightshow and more. No matter how big or small the venue, Kontrollled Khaos brings a crowd and creates a sound that empowers, inspires and moves every individual within their reach. With their debut studio album entitled 'Let Love' being released, Kontrollled Khaos intends to add to their impressive resume which includes performances at DC Jazz Fest, Takoma Tavern Station, The Fillmore in Silver Spring, and many other venues across the US East Coast. Kontrollled Khaos is committed to mastering their crafts, working in a spirit of excellence, and providing others with a life changing experience.
- They have released four singles within two years: Break Up, Doing Too Much, The Christmas Song, and Indecision; available on all digital music streaming platforms. New music will be released in early 2022. Look out for our "Getn 2 It" album! Check them out at [www.thekontrollledkhaos.com](http://www.thekontrollledkhaos.com)”
